SANKET BHIWAPURKAR

Front End Developer

sanket24bhiwapurkar@gmail.com +91 7276295583 https://www.linkedin.com/in/sanket-bhiwapurkar/

EDUCATION

- **2022 - 2023: NxtWave's CCBP 4.0 Intensive Program** | Online
  Relevant Coursework: MERN stack Developer

- **2017 - 2020: Bachelors in Commerce (Computer Application)** | Nagpur University (RTMNU)
  Nagpur | Maharashtra | 8.23 CGPA
  Relevant Coursework: Computer Science, e-commerce

CORE COMPETENCIES

- Front end Development
- UI/UX Development
- Web Accessibility
- Cross-Browser Compatibility
- Performance Optimization
- REST APIs
- Testing
- Agile Software Development

TECHNICAL SKILLS

- **Front-end Development:** HTML5 | CSS3 | JavaScript | TypeScript | jQuery | Bootstrap | ES6+ | Reactjs | Redux | Tailwind CSS
- **Back-end Development (theoretical knowledge):** PHP | Laravel | Nodejs | Express | MongoDB | SQLite
- **Others:** Git/GitHub, NPM

SOFT SKILLS

- Analytical
- Problem-solving
- Detail-oriented
- Teamwork
- Communication

KNOWN LANGUAGES

- English

PROFILE SUMMARY

- A result-driven Front-End Developer with **1.5+ years** of experience.
- Proficient in utilising advanced front-end technologies to enhance **user experiences** and streamline development processes, ensuring **optimal performance** and **scalability** of web applications.
- Adept at aligning **IT strategies** with business goals to drive growth and efficiency.

WORK EXPERIENCE

Stockmed Network Pvt. Ltd. Jul' 2023 - Present
Front-end Developer

PROJECT 1:

- **Directed the development of a multivendor B2B e-commerce platform** tailored for the Indian healthcare sector, showcasing project leadership and cross-functional team coordination.
- **Enabled 10K+ of businesses to conduct transactions seamlessly**, enhancing operational efficiency and client satisfaction through effective requirement gathering and communication.
- **Engineered a comprehensive admin panel** with custom page creation**,** streamlined product management, and real-time control, improving usability and productivity.
- **Employing a cutting-edge technology stack including React.js, Redux, Bootstrap, Laravel, and PHP Blade** to deliver scalable and responsive solutions that meet industry standards and client expectations; leveraging analytical skills to troubleshoot complex issues and drive continuous improvements.

PROJECT 2:

- Crafted **the frontend of Manarti Exports website** with interactive galleries, and seamless image uploads, ensuring a rich user experience.
- Collaborated effectively with Design Teams to translate concepts into functional components
- Ensured alignment with aesthetic and usability standards.
- **Customised a comprehensive admin panel**.
- Leveraged a versatile technology stack **encompassing HTML5, CSS3, JavaScript, jQuery, and Bootstrap** to achieve these milestones, ensuring compatibility and high performance across various devices and browsers.

PROJECTS

GlucoCare (Glucose level and medication reminder) (https://github.com/sanket-bhiwapurkar/react-glucocare)

Implemented the GlucoCare application where users with diabetic conditions can **track their glucose levels, medication reminders,** and **manage hospital appointments**.

- Used **SQLite** for **storing data**, **CRUD operations**, and **API integrations**.
- Implemented user authentication and authorization with JWT, including login.
- Designed and **integrated pages/routes** for login, home, glucose tracking, medication reminders, and appointment management.

- Hindi
- Marathi

Technologies used: Fullstack, React JS, Node JS, SQLite, Express.js, JS, CSS, Bootstrap, Routing, Cookies, JWT Token, Authorization, Authentication, Middlewares, Verification.

Nxt Trendz (ECommerce Clone - Amazon, Flipkart) (sanketnxttrendz.ccbp.tech)

Implemented Nxt Trendz application, a clone for ECommerce applications like Amazon, and Flipkart where users can log in and see a list of products with search, filters, sort by, etc.

- **Implemented Different pages and routes** for Login, Products, and Product details using React Router.
- Components Route, Switch, Link, props, state, lists, event handlers, form inputs. **Authenticating and authorizing** users by taking usernames, and passwords, doing login **POST HTTP API calls** and **implementing filters** by sending them as **query parameters** to product API calls.
- Persisted user login state by keeping the **jwt token** in **local storage**, sending it in headers of further API calls to authorise the user.

Technologies used: React JS, JS, CSS, Bootstrap, Routing, REST API Calls, Local Storage, JWT Token, Authorization, Authentication.
