Summary

Skilled React Software engineer with 3 years of experience in developing dynamic web applications. Proficient in leveraging React frameworks to create efficient, responsive user interfaces, and experienced in collaborating with cross-functional teams to deliver high-quality software solutions.

Skills

Languages: C, C++, HTML, CSS/SASS, JavaScript, Typescript, AJAX, Java
Technologies/Frameworks: React.js, Node.js JSON, jQuery, Flux, Redux Bootstrap, REST API, GraphQL, Material-UI
Build Tools/Developer Tools: Webpack, Babel, NPM, yarn, CI/CD pipeline, Git Version Control System, Jira, Postman, VSCode

Experience

GlobalLogic **June 2022 – Present**
Associate Software Engineer **Noida, India**
Project 1 (Diligent)

- Developed and maintained scalable and responsive user interfaces using React.js, Material-UI, and Redux, focusing on enhancing user experiences, performance and maintainability while ensuring cross-browser compatibility.
- Created and integrated 5+ front-end modules for data retrieval and display from backend services, ensuring **100%** alignment with **Figma** designs.
- Implemented RESTful APIs with React.js, enabling seamless data retrieval and manipulation while maintaining a modular and scalable architecture to enhance data interaction efficiency.
- Used Jest for unit test, Cypress for end-to-end, and integration testing, achieving 90% code coverage and improving code quality.
- Enhanced application performance by employing optimization techniques such as code splitting, caching, lazy loading, and optimizing HTTP requests.

Project 2 (Petco)

- Collaborate with a team of 10 developers in a scrum and Agile environment to gather client requirements and deliver insights that drive enhancements in product functionality.
- Implemented UI enhancements from Figma designs, translating visual mockups into responsive and user-friendly interfaces.
- Debugging application issues, troubleshooting problems, conducting code reviews, incorporating feedback, and enhancing stability and user satisfaction.

HappilyEver Matrimony **July, 2021 - Nov, 2021**
Full Stack Developer **Hyderabad, India**

- Contributed to the development of matrimonial features, including **profile verification** and **profile information modules**, as a core team member.
- Ensured adherence to development specifications and quality standards, contributing to project consistency and reliability.
- **Internship Certificate.pdf**

Projects

CROSS-PLATFORM EXCEL CLONE | *Javascript*

- Developed a cross-platform spreadsheet application using Electron, with support for Linux, Mac, and Windows.
- Implemented user interface and features, including text formatting, formula evaluation, cell operations, and two-way binding using jQuery, HTML, and CSS.
- Utilized graph data structures and DFS algorithm for cycle detection in formulas, with visual indicators for cyclic paths.

Education

Amity University **Aug 2018 – Jun 2022**
B.Tech in Computer Science and Engineering **Noida, India**
Cum. GPA: 8.03

Certifications

- 25% Student Scholarship based on 12th Results.
- Completed 5-month training in Data Structures and Algorithms. **Training Certificate.pdf**
- 3-star LeetCode rating, showcasing strong problem-solving skills.
- 600+ questions solved on coding platforms like Leetcode and GeeksforGeeks.
