SUMMARY

Enthusiastic programmer with over 2 years of experience in Angular frontend development. Actively seeking opportunities in a knowledge-driven organization to contribute, innovate, and grow. Passionate about leveraging technology for impactful solutions and ready to embrace challenges in a dynamic environment.

SKILLS

- Angular 15,16
- Micro-front-end architecture
- Javascript / Typescript
- Basic HTML/CSS
- Agora SDK (Live streaming, Video/Audio Conferencing)
- Fire store/ Firebase (Realtime Database)

WORK EXPERIENCE

Ideal It Techno Pvt Ltd **March 2022 - Present**

As a frontend developer, I play a crucial role in developing and maintaining multiple Angular applications using TypeScript, HTML, CSS, and JavaScript. I collaborate closely with backend developers to integrate RESTful APIs into the applications. Additionally, I build reusable components that can be leveraged across different projects or applications. I utilize GitLab, Jira, and various web development tools to streamline the development processes.

The GM10 - The Social Trading Card Plateform

- GM10 is a social platform built on a micro-services architecture tailored for trading cards enthusiasts. Our collector-focused application connects the trading cards hobby by consolidating the best features into one unified platform.
- Responsible for implementing Firebase services and integrating the Firebase Live Chat feature.
- Responsible for resolving client-specific issues using the Jira.

Liveshoppie - E-commerce website

- Liveshoppie is an e-commerce website based on a micro-service architecture where Each micro-service can handle a specific function, such as user authentication, product catalog management, payment processing, etc., making the overall system easier to maintain and update.
- Implement crud on products like create-edit delete products.
- Responsible For providing real-time communication between host & audience by providing a live room to users on the platform by embedding real-time live streaming using Agora Client SDK

EDUCATION

Bachelor of Technology in Information Technology **Aug 2017 - Aug 2021**
