Summary

A proactive Full Stack Web Developer with over 3 years of experience specializing in building high-performance, scalable web applications using **React**, **Node.js**, and **Redux**. Currently contributing to UFO Cine Media Network, I develop user-centric solutions while managing data backup and security protocols. I am passionate about writing clean, maintainable code, and optimizing applications for speed and responsiveness. I have a proven track record of building and maintaining complex, secure e-commerce platforms, improving performance through state-of-the-art techniques like **code-splitting**, **lazy loading**, and **memoization**.

Key Skills

- **Languages**: JavaScript (ES6+), HTML5, CSS3
- **Frameworks/Libraries**: React, Redux, Redux Toolkit, Context API, React Router
- **Backend**: Node.js, Express
- **Database**: MongoDB, Firebase
- **API Integration**: RESTful APIs, Axios, Fetch
- **Testing**: Jest, React Testing Library
- **Tools & Version Control**: Git, GitHub, Webpack, Babel, NPM
- **Performance Optimization**: Code Splitting, Lazy Loading, Memoization, Debouncing
- **Cloud & Deployment**: AWS (S3), Firebase Hosting, Netlify

---

Experience

UFO Cine Media Network, Mumbai
Assistant Manager - Data Backup & Frontend Developer
February 2010 – Present

- Developed **scalable, responsive single-page applications** using React and Redux, enhancing user experience and app performance.
- Integrated **RESTful APIs** and optimized data-fetching strategies, improving load times.

- Led the implementation of **state management** using Redux and Context API, streamlining app state management across multiple components.
- **Improved website performance** using **code-splitting**, **lazy loading**, and **memoization**, resulting in faster load times and enhanced user experience.
- Spearheaded the development of a **secure, scalable e-commerce platform**, integrating **payment gateways** and ensuring a seamless checkout process.

Projects

- **Portfolio Website**
  https://pralhad36.github.io/MyPortfolio/
  Designed a personal portfolio website to showcase web development projects using **HTML**, **CSS**, and **JavaScript** with engaging animations.
- **Netflix-GPT (OTT Project)**
  https://66cffc9243217a90f05cd419--famous-concha-61acb7.netlify.app
  Built an **OTT platform** using **React**, **Redux**, and **Tailwind CSS**, featuring **user authentication** with Firebase and a **searchable movie database**.
- **Swiggy-App (E-commerce)**
  https://react-swiggy-51b80.web.app/
  Developed a **react-based e-commerce platform**, using **Redux** for state management and **Tailwind CSS** for styling. Focused on **state lifting** to optimize data flow between components.

Education

- **Full Stack Web Developer (MERN)**
  RST Forum, Mumbai (2021)
- **Bachelor of Commerce**
  Mumbai University (2009 - 2010) | 60%
- **CCNA, CCNP**
  RST Forum, Mumbai (2017)

Additional Information

- **Open to relocation/remote work**

- Passionate about continuous learning and keeping up-to-date with the latest web technologies.
