Profile

Highly skilled and motivated Software Engineer with a strong educational background in software engineering. Seeking a position to utilize technical expertise and passion for coding in innovative software solutions. Proven track record in developing and implementing software applications, confident in excelling in fast-paced, dynamic environments.

Skills

HTML5 | CSS3 | Javascript | React.js | Redux | Tailwind CSS | Material UI | React-Router | Git

Projects

Cleaning Service Website
Developed and launched a cleaning service website as a **freelance project** for a **client's business**, managing **design**, **development,** and **hosting**. Used **HTML, CSS,** and **JavaScript** to build a **responsive site** with a **contact form** that emails the business owner directly for inquiries.

GYM WEBSITE
Created a gym website for self-learning using **React.js** and **React Router** for seamless navigation. **Integrated Rapid API** for **exercise searches** and **YouTube API** for relevant **exercise videos**. Styled the interface with **Material-UI** for a user-friendly and **responsive design,** ensuring intuitive navigation.

Food-Delivery
Developed a food delivery web app using **React.js**, featuring **add-to-cart functionality**, **quantity management**, and a streamlined **checkout process** with a user-friendly form.

Education

Master of Computer Applications (MCA) 07-2024 – present
Kurukshetra University
