7.01.CGPA

PROJECTS

OenStudy-Application **March'16 - June'24**

Developed a web application where students can learn how to upload their doubts and discuss things through images, and they have study material from 1st to 12th grade. I have been working on various modules, such as Dashboard, Discussion, text-to-speech, user registration, support modules, etc.

Technical Stack, React native, Redux-toolkit, Javascript

Visitor management system **March'20-May'23**

It solves public problems, and my work was to become a user and create visitors. Worked on multiple modules, such as adding visitors, registration, logout, localization, and other support modules.

Technical stack:, React, Redux, JavaScript, HTML, CSS, and Bootstrap

True-Sales (Manager) **December'29-March'15**

A web-based application for managers to get real-time analytics of team performance; it allows capturing live status, like login or logout, talk time. Managers can also check attendance status, assigned task or follow-up status, and call log history in the report. Real-time analytics of team performance to check dashboards and generate team reports.

Technical stack :, React.js, Redux, Bootstrap, Material-UI, JavaScript, HTML, css, Stocket.oi

True-Sales (CSR) **June'15-Dec'23**

Web-based outbound and inbound call management CRM. Ideal for outbound campaigns, telesales, and telemarketing. It captures client and customer information during calls on the web and records it; this is also known as real-time management reporting. You can also track their real-time location along with the recording, inbound and out
bound call tracking, interaction history, etc.

Technical stack :, React.js, Redux, Bootstrap, Material-UI, JavaScript, HTML, css

TECHNICAL SKILLS

Javascript, Python, My SQL Database, HTML, CSS, JavaScript, React.js, React Native, Redux toolkit, Rest API, Tailwind CSS, Bootstrap, Material-UI;, MS Word, MS PowerPoint and MS Excel
