PROFILE SUMMARY

- Over 4 years of experience in UI development, specializing in designing, developing, and deploying web applications and landing pages.
- Currently employed as an Associate Consultant at Wurth IT, working on Firstspirit CMS and contribute to significant projects like Workshop Finder and Event Code Application using Angular and API integrations.
- Diverse industry experience including roles in digital marketing, HTML development, and UI design across various sectors such as IT, finance, and digital marketing.
- Recent achievements include the successful creation of interactive admin panels and user interfaces for high-profile clients and significant contributions to internal project management and client solutions.
- **Key Skillsets:**
  - Proficient in HTML5, CSS3, JavaScript, Angular (latest versions), Bootstrap, and jQuery for creating dynamic, responsive, and visually appealing web applications and pages.
  - Experienced in integrating and managing APIs to handle data retrieval and manipulation, enhancing application functionality.
  - Skilled in using CMS platforms like Firstspirit for effective content management and custom page development.
  - Demonstrated ability to manage and deliver projects on time, including developing admin panels and tailored client solutions, with a focus on responsive design and cross-device compatibility.

WORK EXPERIENCE

Wurth IT, Pune | *Associate Consultant* | *December 2021 – Present*

- **CMS Development:** Utilize Firstspirit CMS to design and develop custom web pages for German clients, adhering to their specific syntax and rules. Create dynamic content using HTML, CSS, and JavaScript.

- **Workshop Finder Application:**
  - **Objective:** Develop a solution for users to locate car workshops in Germany and navigate to them.
  - **Responsibilities:** Implemented the application using the AGM (Angular Google Maps) library, integrating features to display workshop details upon marker clicks and showing the nearest workshops. Managed API data for workshop locations, including latitude and longitude.
  - **Technologies Used:** Angular 13, AGM Library, API Integration.

- **Event Code Application:**
  - **Objective:** Enable users to book tickets for events, manage ticket limits, and view event details.
  - **Responsibilities:** Created an Admin Panel for event management, including event creation, ticket limit settings, and email notifications. Developed event detail pages and ticket download features, integrating with APIs for data handling and status updates.
  - **Technologies Used:** Angular 13, API Integration, HTML, CSS, JavaScript.
