Summary

A skilled and motivated FullStackDeveloper with 1.5 years of experience in HTML,CSS, React ,Redux, javaScript, Node Js ,Express Js and MySQL. Committed to delivering high-quality results and working collaboratively in a friendly and dynamic environment.

Skills

- React ,JavaScript,Node JS
- Express JS ● Redux ES6
- HTML-HTML5,CSS-CSS3
- Bootstrap,JQuery
- MySQL,MongoDB
- Gitthub(bitbukect)
- Unit testing
-

Experience (1.5 Years)

Snipe Tech Pvt Limited

Full Stack Developer (Node js with React)

3/2023 to 2024

Project Name: UPL (Unlimited Power Of Learning)

The platform is an online learning platform that offers an array of courses, guiding candidates who are restarting their careers .This platform serves as a comprehensive resource for individuals seeking to re-enter or redirect their professional paths.

- Designed and developed admin dashboard ,executor dashboard,,user interface page for this website.
- Utilized seed data and created migration scripts for MySQL,establishing and maintaining efficient database table structures
- Implemented authentication middleware to secure access and authorization at root level, fortifying the integrity of finalized solutions..
- Created custom components, forms, and interfaces for user interactions in React and **re-usable component ,buttons** to increase the performance of application.
- Implemented props drilling using **createContext** for enhanced component communication and management
- Skilled in leveraging **Node.js** and **React Hooks** for efficient **data fetching, updating,** and **deletion from databases and AWS cloud services**

- Utilized **Redux** for efficient state management and integrated **REST APIs** to develop robust React applications.
- **Aws Service** for the storing the image ,pdf and data
- Worked closely with product owners on requirements gathering, design decisions, and implementation strategies for new features in a react application.

- Proficient in debugging frontend issues using Chrome DevTools, leveraging source inspection for effective bug identification and resolution. Additionally, skilled in backend debugging using Visual Studio Code for efficient issue resolution and application optimization.

- Used **MongoDB** for connections

Tech Stack: React,Material UI, NodeJS Redux ExpressJS, JavaScript,MySQL, Mongo DB(conncetions).

Project Name: inno_hub research

At the InnoHub Research Center, we are at the forefront of pioneering research and innovation in key domains that shape the future of computing. Our multidisciplinary approach brings together brilliant minds to explore the realms of Artificial Intelligence (AI), Cybersecurity, Web Applications, Databases, Internet of Things (IoT), and Cloud Computing.

In the ever-evolving computing landscape, our research center stands as a hub for cutting-edge advancements. We are dedicated to pushing the boundaries of knowledge and fostering a collaborative environment where experts from diverse fields converge to address complex challenges.

- Developed responsive **UI** pages with **HTML5**, tailwind css, **Bootstrap**,**Material UI** and **React**, ensuring optimal structure, styling, and functionality.
- Enhanced application performance by creating reusable components and buttons.

- Integrated backend **APIs** seamlessly to fetch dynamic data and update website content in real-time, optimizing user experience.
- Utilized **JSON** and **MySQL** databases for temporary and persistent data storage, ensuring efficient CRUD operations. Additionally, monitored key metrics and collaborated with the management and development team to optimize app usage and ensure responsiveness across multiple devices.

Tech Stack: React, html,css,Bootstrap ,Redux ExpressJS, JavaScript, MySQL, .

Education and Training

Bachelor of computerApplications:

Rani channmma university ,Belgam

2018-2021

personal information

F.name: kalappa badiger

M.name: Rekha badiger

PUC: Ajeet pu Academy ,Bagalkot [PCMB] 2016-2018

D.O.B: 18/11/1999

SSLC: govt high school nirani,bilagi

HOBBIES:learning new skills,designing
