Meesala Krishna

PHP Developer

Career Objective

As a PHP and WordPress developer with two years of hands-on experience and a Master of Computer Applications, I bring robust problem-solving abilities and a dedication to delivering high-quality, efficient solutions. Known for being a strong team player, I excel in agile environments and am eager to join your team and contribute to innovative web development projects.

Work Experience

1. **Web Content Publisher** — Jun 2023 - Present
   MomJunction Pvt Ltd.
   - Maintain and update our product-based website using WordPress, ensuring it remains attractive, engaging, and up-to-date across multiple pages.
   - Implement SEO practices to enhance visibility and ranking, while collaborating with other teams to rectify daily errors and ensure smooth functionality.

2. **Web Developer** — Feb 2022 – Mar2023
   MsConnecting Point Solutions
   - Utilize HTML5, CSS3, JavaScript, and PHP to create user-friendly interfaces. Coordinate with stakeholders to ensure project goals are met efficiently.
   - Integrate complex features, optimize performance, and stay updated on trends to deliver innovative solutions exceeding client expectations.

Projects

1. **WordPress Project**: Developed a complete WordPress website, focusing on user experience, responsive design, and SEO optimization. Implemented Custom plugins and custom Theme, functionalities to enhance site performance and user engagement.
