BEEMIREDDY.VINAY

Email id: vinaybeemireddy4989@gmail.com

Mobile no: +91-9666704989.

Summary:

- Having 2 Years of experience as a Systems Engineer.
- Having knowledge in design and development of applications using **Web Technologies** like **HTML**, **CSS**, **JAVASCRIPT and React.js, Redux, RESTful APIs. Adept at creating scalable, responsive and high-performing web applications.**
- Having Experience in VMware, Windows administration and Linux administration.

Educational Qualifications:

Qualification	Board	Year of Passing	Percentage/CGPA
Post-Graduation M.C.A	JNTUK	2022	7.5
Graduation B.Sc.(CS)	Andhra University	2020	7.5
Intermediate	Board of Intermediate Education, AP.	2017	870
SSC	Board of Secondary Education, AP	2015	8.3

Professional Experience:

- Currently working as Systems Engineer at Infosys Ltd from October 2022 to till now.

Technical Skills:

- Web Application Development
- HTML, CSS, Java Script, React.js, RESTful APIs, Redux.
- Visual Studio 2017 and 2019.

Project Details:

Project 1:-

Title : Citizens Bank Server Management.
Environment : VMware, Windows server and Linux administration.
Tools : Service Now, Citrix, Jira.

Description:

Managed and maintained Citizens Bank's virtualized and physical server infrastructure. Provide technical support and troubleshooting across VMware, Windows, and Linux environments to ensure smooth operations and uptime for critical banking systems.

Key Responsibilities:

- Administered VMware infrastructure, including provisioning, managing, and monitoring virtual machines and datastores.
- Performed routine maintenance, patching and upgrades for both Windows and Linux servers, ensuring systems were up-to-date and secure.
- Identified and troubleshoot hardware, software, and network-related-issues, minimizing downtime and enhancing system reliability.

Project 2:-

Title : Nykaa Clone

Features:

- Developed a comprehensive e-commerce platform inspired by Nykaa, utilizing React.js and Chakra UI for a responsive and accessible user interface.
- Implemented essential frontend features including Home, Login, Signup, Product, Cart, Address Update, Payment, and Order Confirmation pages.
- Integrated Firebase for secure user authentication and management, enabling seamless login, signup, and logout functionalities.
- Managed product and user data efficiently using Node.js and Express.js, facilitating smooth data operations and scalability.
- Enhanced user experience with features like search functionality, add to cart, and buy now options, emulating the original Nykaa shopping experience.

Tech Stack:

HTML, CSS, React, JavaScript, RESTful APIs, Responsive Web Design.

Project 3 :-

Title : ZARA Clone.

Features:

- Utilized HTML, CSS, and JavaScript to develop a visually appealing and responsive clone of the ZARA website.
- Implemented interactive features and dynamic elements using JavaScript for an enhanced user experience.
- Integrated third-party APIs to fetch and display real-time data for up-to-date website content.
- Ensured compatibility across various devices and screen sizes, providing a seamless browsing experience.
- Managed project timelines, debugging, and iteration based on user feedback to refine the website.

Tech Stack:

JavaScript, HTML5, CSS3, Responsive Web Design API.
