About Me

I am Apoorv Agarwal, a dynamic & results-driven web designer with over 4 years of experience in creating responsive, user-friendly web applications. Currently, I am continuing my professional journey as a web designer in a new company, where I apply my expertise in HTML, CSS, & JS to deliver high-quality designs. I am passionate about developing solutions that enhance user experience & streamline processes. Looking forward to contributing to innovative projects & driving organizational success.

Work Experience

Company name: Adaan Digital Solution Pvt. Ltd., New Delhi
Designation: Web Designer
Tenure: Feb/2020 - Jun/2024

- Developed responsive and visually appealing web designs using HTML, CSS, and basic JavaScript, enhancing user experience across multiple devices.
- Collaborated with cross-functional teams to design and implement web pages that aligned with client requirements and project goals.
- Optimized website performance by improving loading times and implementing best practices for web standards.

Company name: As Airspace Travels Private Limited, New Delhi
Designation: Web Designer
Tenure: Aug/2020 - Current

- Continuing to create responsive and modern web designs, leveraging HTML, CSS, and JavaScript to deliver clean and functional interfaces.
- Working closely with the development team to ensure seamless integration of design elements and code for dynamic, user-focused websites.
- Maintaining and updating existing websites, ensuring they adhere to the latest industry standards and improve overall user engagement.
