EDUCATION

B.Tech (Electrical & Electronics Engineering)

Sri Venkateswara Engineering College for Women, Tirupati – JNTUA 2017-2021 79%

Intermediate (MPC)

Sri Chaitanya Junior College, Tirupati 2015-2017 94.6%

TECHNICAL SKILLS

HTML & CSS | Core Java | Vaadin | JavaScript | SQL | GIT | SVN | Microservices

PROJECTS

Project Title: HRM

Project Description:

HRM is a web-portal for managing all human resource activities including person onboarding, capturing training details, vacation details, skills, appraisal, and document manager along with hierarchy or organization members. This portal product is used my multiple clients over Finland and Sweden. This portal acts as a one- stop shop to get complete details of employee along with feature to generate report, approvals, user / group privileging, role separation, training alerts, appraisal alerts, notification and e-mail alerts to managers on various activities performed by the employee.

This project was developed using VAADIN framework for UI/ Screen development which in turn contacts the delegate layer and then to business layer. Business layer is developed with spring which in turn contacts with SQL server DB. Backend integration is done with JDBC queries interacting with SQL database. VAADIN CSS and layout is used for styling. Tomcat is used as a web server and SVN is used for version control.

Technologies used:

VAADIN, Hibernate, JDBC, Apache Tomcat Server DB, REST API

Softwares used: Confluence, Jira, Git, SVN

CERTIFICATIONS

- C Programming certified from CodeTantra
- Data structures and Algorithms certified from Udemy.
