OBJECTIVE

A highly motivated and dedicated professional with one year plus experience in Frontend development. Seeking a challenging position to utilize my skills and contribute to the growth of a dynamic organization. Flexible to work remotely or onsite, strong problem-solving skills and a passion for driving efficiency and innovation.

EDUCATION

Bachelor of Technology, DR Bidhan Chandra Engineering College, Durgapur, West Bengal (Electronics and Communication) – *8.17cgpa* 2018-2022

AISSCE , Kendriya Vidyalaya ,Bagdogra, West Bengal – *80%* 2017- 2018

AISSE , Kendriya Vidyalaya ,Bagdogra, West Bengal – *9.6cgpa* 2015- 2016

SKILLS

Technical Skills	JavaScript, Java, C/C++, HTML5, CSS3, React.js
Frontend Development	React.js, Redux, Tailwind CSS, AJAX
Backend Development	NodeJS, Express
Version Control & Collaboration	Git, GitHub
Database	SQL, MongoDB
Other Skills	Data Structures and Algorithms, Problem Solving, Rest API

EXPERIENCE

Software Developer
Wipro (*Bangalore, India)* *Jan 2023 – Sept 2024*

Project Title: Frontend Dashboard

Position: Frontend Developer

Tool Technologies: React JS, JavaScript, Tailwind CSS

Roles Responsibilities:
Maintained and contributed to a React Dashboard using JavaScript and Tailwind CSS, with debugging via Sentry.
Wrote unit tests with Jest to ensure code quality and reliability.
Optimized an NLP server to support both new and legacy models, improving performance and user support.
Worked on a data scraping feature for Pinecone, contributing to customer acquisition.
Delivered production-ready features that positively impacted lead generation and customer acquisition.

Project Title: Frontend Data Validation
Position: Developer
Tool Technologies: Python
Roles Responsibilities:
Analyzed and validated data from Snowflake to ensure accuracy and relevance for client requirements.
Reviewed bot-generated data for quality control, identifying inconsistencies and ensuring data reliability.
Scraped product data from websites using Python and Selenium for analysis and client reporting and streamlined existing code to enhance data extraction processes and maintain accuracy.

Wipro (Bangalore*, India)* *March 2022 – May 2022*
Project Title: Full Stack development
Position: Trainee
Tool Technologies: JavaScript, React, Tailwind CSS, Fetch, Axios

Roles Responsibilities:

Developed and maintained front-end features using JavaScript and React, ensuring responsive and interactive user interfaces.

Collaborated with the development team to design and implement scalable full-stack solutions using modern web technologies.

Assisted in building reusable components and libraries to improve efficiency and code reusability across projects.

Integrated APIs to fetch and display dynamic data in React applications, handling asynchronous operations with fetch and axios

Participated in code reviews to ensure adherence to best practices and high-quality code standards.

Debugged and optimized front-end code to improve performance, accessibility, and usability.

PERSONAL PROJECT

- **Thread Clone (09/2024 - 10/2024)** Deployed Link **-** Developed a full-stack social media application with real-time interactions and a responsive design. Created RESTful APIs for user authentication, post creation, and comment management using Node.js and JWT. Integrated real-time chat functionality using WebSocket for instant messaging between users. Utilized MongoDB for efficient data storage and retrieval of posts, comments, and user profiles, ensuring smooth and dynamic user experiences.
- **Codepen Clone (08/2024 - 09/2024)** Deployed Link **-** Developed a CodePen clone using React.js and React Redux, featuring a split-pane editor to enhance the user experience. Utilized Firebase for real-time data storage and authentication, ensuring security and smooth user interactions. Ensured cross-device compatibility and optimal user experience through a responsive design. Showcased strong proficiency in frontend development and UI enhancements, delivering a seamless and efficient user interface for live coding and project sharing.

CERTIFICATION

MERN Stack Training (Geekster)

SnowPro Core (Snowflake)

Microsoft Azure Fundamentals (AZ-900) (Microsoft)
