# DADHIMUKH YADAV

MERN Stack Developer | Web Developer | Full Stack Developer

dadhimukh.1994@gmail.com

8799934573

**Experienced Web Developer** specializing in **MERN stack technologies** (MongoDB, Express.js, React.js, Node.js) with over **2.8 years** of **hands-on experience** in **designing**, **developing**, and **deploying scalable web applications**. Proficient in **full-stack development**, **RESTful API integration**, and **database management**, with a strong emphasis on writing **clean**, **maintainable**, and **efficient code**. Skilled in leveraging **agile methodologies** and **industry best practices** to deliver **high-quality solutions** that meet **client and business requirements**. Passionate about **solving complex problems**, **optimizing performance**, and staying updated with emerging technologies. Seeking opportunities to contribute my technical expertise **in a challenging and innovative environment**.

- Experienced in front-end technologies including **React, JavaScript, HTML&CSS**.
- Skilled in consuming and integrating **RESTful APIs** within **React Applications.**
- Basic experience with **Node.js** for server-side development and using **MongoDB for** Database for Database Management**.**
- Familiar with testing tools **Fiddler** and **Postman.**
- Having good knowledge of server-side languages such as **Node.js, Express.js, CORE JAVA, MVC, Rest Web APIs,** etc.
- Having a good understanding of front-end technologies like **React, CSS, HTML, React Hooks, JavaScript, jQuery, Ajax,** etc.
- Solid understanding of **OOPS** concepts and design principles.

## WORK EXPERIENCE

### Software Developer

Myclan Services Pvt Ltd

***07/2022 - Present*** ***Pune, India***

*Tasks*

- **Design**, **develop**, and write the **frontend** and **backend** code for the applications.
- Develop the **UI** based on **React** and **Angular**.
- **Refactor** and **review** code to meet **industry standards**.
- **Evaluate** code to ensure it is **valid**, **properly structured**, meets **industry standards**, and is compatible with **browsers**, **devices**, or **operating systems**.
- Implement and integrate **RESTful APIs** within applications.
- Optimize application performance by improving **page load times** and ensuring **efficient rendering**.
- **Troubleshoot** and **debug** application issues for **seamless performance** across different environments.
- Perform **code reviews** to ensure **high-quality**, **maintainable**, and **secure** code.
- Work with **Agile methodologies**, including **sprint planning**, **stand-ups**, and **retrospectives**.
- Implement **authentication** and **authorization** using **JWT**, **OAuth**, or **security protocols**.
- Utilize **Git** for **version control**, ensuring **seamless collaboration**.
- Develop **dynamic dashboards** and **reports** using **Chart.js**, **D3.js**, or **Recharts**.
- Stay updated with the latest **web development trends** and adopt **new technologies**.

## TECHNICAL SKILLS

| | | |
|---|---|---|
| Server-Side Technologies | : | JavaScript, Core Java, Node.js, RESTful APIs, Microservices |
| Frameworks | : | React, React Native, Express.js, AngularJS, MVC |
| Front-End Technologies | : | HTML5, CSS3, Bootstrap, Tailwind CSS, jQuery, Ajax, TypeScript |
| Databases | : | SQL Server, MySQL, MongoDB |
| Tools | : | Fiddler, Postman, Git, SVN |
| Platforms & Other Skills | : | Linux, AWS EC2, API Development |

## EDUCATION DETAILS

| Degree | University | Passing Year | Grade/Percentage |
|---|---|---|---|
| Bachelor of Science (B.S) | Gondwana University | 2022 | 7.32 CGPA |

## PERSONAL DETAILS

| | | |
|---|---|---|
| Date of Birth | : | 15/01/1994 |
| Marital Status | : | Unmarried |
| Gender | : | Male |
| Language Known | : | English, Hindi, Marathi |
| Address | : | Gadchandur ward no 4 Dist- Chandrapur (MH) |

# PROJECTS

## Property Management Software

### Overview

The **Property Management Software** is a **web-based** solution designed to **simplify** and **automate rental property management**. It enables property managers to **efficiently handle property listings**, **tenant applications**, **maintenance requests**, **financial tracking**, and **lease agreements**. The platform enhances **operational efficiency** by providing a **centralized system** for communication and **record-keeping**.

### Key Features

- **Property Listing Management System**: Developed a **web application** enabling property managers to list available properties with detailed descriptions, high-resolution images, and dynamic pricing. Utilized **database management** and **user interface (UI) design** to ensure a seamless user experience.
- **Tenant Application Portal**: Designed and implemented an **online tenant application system** for seamless submission of tenant profiles, including background checks and documentation. Integrated **backend development** and **secure data storage** to ensure data integrity and compliance.
- **Maintenance Request Module**: Engineered a **robust system** for tenants to submit and track maintenance requests, including detailed descriptions and image uploads for issue documentation. Leveraged **cloud-based solutions** and **system integration** to enhance functionality and scalability.
- **Financial Management Tools**: Built **integrated tools** for automated rent collection, expense tracking, and comprehensive financial reporting to streamline property management operations. Incorporated **automation tools** and **financial reporting modules** to improve efficiency and accuracy.
- **Lease Management System**: Developed a **secure, cloud-based solution** for storing lease agreements, managing renewals, and facilitating tenant communication. Implemented **database management** and **secure data storage** to ensure data protection and accessibility.
- **Real-Time Communication Platform**: Implemented a **built-in messaging system** to enhance communication between property managers and tenants, ensuring efficient and transparent interactions. Utilized **real-time communication systems** and **backend development** to deliver a responsive and reliable platform.

## Event Management and Ticketing Platform

### Overview

The **Event Management** and **Ticketing Platform** is a feature-rich **web application** Developed to enhance **event organization**, **promotion**, and ticketing. It provides event organizers with powerful tools to manage event creation, **ticket sales**, **attendee check-ins**, and **real-time engagement**. The platform supports both **virtual** and in-person **events**, offering **seamless integration** of **exhibitor booths**, **interactive sessions**, and **insightful analytics**.

### Key Features

- **Event Creation Module**: Developed a feature-rich platform enabling organizers to create and customize event pages with detailed descriptions, high-resolution images, and dynamic schedules. Utilized **user interface (UI) design** and **database management** to ensure a seamless user experience.
- **Ticketing System**: Designed and implemented an **online ticketing system** with secure payment processing, allowing attendees to purchase tickets seamlessly. Integrated **backend development** and **secure data storage** to ensure transaction security and reliability.
- **Attendee Management Tools**: Engineered a robust system for tracking attendee information, registrations, and check-ins. Leveraged **cloud-based solutions** and **system integration** to streamline event operations and enhance scalability.
- **Interactive Sessions Platform**: Built a platform to support **virtual and in-person events** with interactive sessions, live Q&A, and real-time polls. Incorporated **real-time communication systems** and **automation tools** to enhance attendee engagement.
- **Exhibitor Booths**: Developed **virtual exhibitor booths** for sponsors and exhibitors to showcase products and services. Utilized **web application development** and **user interface (UI) design** to create an immersive and interactive experience.
- **Analytics and Insights Dashboard**: Implemented a comprehensive analytics dashboard to provide event performance metrics, attendance data, and engagement insights. Leveraged **data visualization tools** and **financial reporting modules** to deliver actionable insights for organizers.

# ACHIEVEMENTS

**Spot Award (11/2024)**

- *Received spot award for resolving the long pending issue of billing data. I found out the root cause and fixed the issue by correcting the code and the queries.*

**Spot Award (09/2023)**

- *Received Spot award for taking up the CRs proactively by the development team for generating the data file through the application which has eliminated the manual intervention in the process and enabled the Finance team to generate reports.*

# DECLARATION

I declare that all the information in this resume is true and accurate to the best of my knowledge and belief. I take full responsibility for the accuracy of the details mentioned herein.
