## ProfessionalSummary:

**Frontend Developer** with **3 years of experience** specializing in **React.js** and modern web development technologies. Proficient in building high-performance, scalable web applications with an emphasis on seamless **user interfaces** and optimal **user experiences**. Strong background in **API integration**,**Git version control**,and **Agile methodologies**. Highly skilled in **HTML5**,**CSS3**,**Bootstrap**, **SASS**, and **responsive web design**, with a commitment to delivering clean and maintainable code.

## Technicalskills:

- **Web Technologies : React.js**,**HTML5**,**CSS3**,**Bootstrap**,**SASS**,**TypeScript**,**JavaScript(ES6+)**
- **Libraries & Tools**:**React Router**,**Redux**,**Axios**,**Postman**,**Jest**,**Webpack**,**Node.js**
- **VersionControl**:**Git**,**GitHub**,**GitLab**
  **API Integration**: **RESTful APIs**
- **UI/UX Design**:**Figma**,**Responsive Web Design**,**Mobile-First Approach**
- **Agile Methodologies**:**Scrum**,**Sprint Planning**,**JIRA**
- **Testing**: **UnitTesting(Jest)**
- **DBMS:NoSQL Booster for MongoDB.**
- **IDEs :MSVisual Studio–Code**.

## Work Experiences:

**Web Developer at Unique Hire Consulting LLP,Bengaluru -March 2022–Present**

**Projects Name:Finacle Online & Mobile Banking**
**Description:**

Finacle is the industry-leading digital banking solution suite from EdgeVerve which brings OnlineBankingandMobileBankingbringsthefullspectrumofbankingproducts andservicestothe fingertips of customers. Customers get full visibility into all their banking accounts and are enabled totransacton the go. The applicationhas multiple levels of security,suchas MPIN,andOTP etc., in addition to a strong password. Finacle is a Core Banking solution that enables banks with digital banking functionalities. Finacle is widely used by banks across 100 countries.

**Roles&Responsibilities**

- Familiar with **ReactJS Class components** and **Functional components**.
- Developed and maintained **user-friedly**,highly interactive web application using **React.js Redux** and **React Router.**
- Worked closely with **UI/Uxdesigners** to implement **visually appealing,responsive layouts** Accorss web platforms

- Integrated third-party **APIs** and developed custom solutions for **dynamic data rendering and real-time updates.**
- Wrote clean and maintainable code with **ES6 javascript,CSS3**,and **HTML5** following best practices and coding standards.
- Participated in **Agile sprints** and collaborated with **back-end developers** to deliver new features and enhancements.

- Improved Application **performance** by optimizing **render cycles**,**lazy loading components**, and **code-spitting.**
- Assisted in **codereviews**,providing feedback to ensure high-quality code and adherence to project standards.
- Developed **reusable Reactcomponents** for various projects,ensuring scalability and performance.
- Worked on **React hooks** for **State management** and functionality enhancement.
- Wrote and maintained **CSS** using **Sass** and **Styled-components**,ensuring a **responsive design** across various screen sizes.
- Integrated **RESTAPIs** using **Postman**(for**APItesting**) and **Axios** to fetch and display dynamic data from back-end
- Assisted in implementin **gunittests** an**d end-to-endtests** usin**g JEST**an**d React testing library** to ensure robust functionality
- Having knowledge in **Object Oriented JavaScript** programming and **Node Js** with **Mongo DB**.
- Participated in **Agile processes**,using **JIRA** to track issues,**user stories**,and project progress.
- Familiar with creating Custom **Reusable React Components**Library(hoc)

## Education:

- Graduated in Bachelor of Technology (MechanicalEngineering) from Pace Institute of technolgy and Sciences during 2015-19 with 66%.

## Declaration:

I here by declare that above mentioned information is correct and best to my knowledge.
