  S.B.V. Phondshiras | 2018 | Percentage: **82.40%**

PROJECTS:

1) i2ispecialist Technologies Website (Technoartz)
Full Stack Developer | Aug 2024 – January 2025

Project Overview:
Developed and maintained a Full Stack Java-based website for i2ispecialist Technologies. Successfully completed the front-end development, focusing on creating a responsive and user-friendly interface.

2) Sai Krupa Financial Services (Technoartz)
Back End Developer | April 2024 – Aug 2024

Project Overview:
Developed a comprehensive loan management application with a user-friendly React front end, including dynamic client tracking and interactive loan status updates. The back end, built using Spring Boot and MySQL, provides secure data management, JWT-based authentication, and effective client-staff assignment, enabling smooth loan processing and administration.

3) Healthcare Chatbot Using AI (Academics Project)
Web Developer | Aug 2023 - April 2024

Project Overview:
Developed a dynamic Healthcare Chatbot application that provides healthcare advice, schedules appointments, and offers personalized health tips. The application included an admin panel for managing users, chatbots, and AI responses, with distinct roles for Admin and User.

4) Virtual Faculty Feedback System (Academics Project)
Web Developer | Aug 2022 - April 2023

Project Overview:
In this project, the goal is to build a Virtual Faculty Feedback System for students to evaluate instructors and courses. It will feature an admin panel for managing users, courses, and feedback forms, as well as generating reports to improve teaching quality.
