**Divya Tiwari**
**Full Stack Java Developer**
**Current Address:** Wakad, Pune, Maharashtra, 411057
**Date of Birth:** 15/10/1997
**Contact No:** +91 7023562250
**Email:** Divyat224@gmail.com

---

## Professional Summary

Dedicated Full Stack Java Developer with hands-on experience in developing and deploying applications using Java, Spring Boot, and Microservices architecture. Proficient in front-end technologies like React.js, HTML5, and CSS3, and back-end development with Java, REST APIs, and MySQL. Strong background in ServiceNow development, coding instruction, and building responsive web applications. Actively seeking a challenging role to apply my expertise and drive organizational success.

---

## Professional Experience

**ServiceNow Developer, Wipro Ltd.**

**August 2023 – Present**

- Designed and implemented custom applications on the ServiceNow platform, focusing on JavaScript development for Incident and Change Management modules, reducing resolution time by 20%.
- Developed client scripts, business rules, and scheduled jobs using JavaScript to enhance functionality and automate repetitive tasks.
- Integrated external systems with ServiceNow using REST and SOAP APIs for efficient data exchange.
- Created and maintained Service Catalog items, adhering to ITIL best practices.
- Automated testing processes using ServiceNow’s Automated Test Framework (ATF), reducing testing time by 30%.
- Built complex dashboards using Performance Analytics for improved service performance monitoring and reporting.

**Coding Instructor, Byju's Future School**

**October 2020 – January 2022**

- Developed a custom JavaScript physics engine for game simulations, including kinematics and collision detection, enhancing realism and gameplay dynamics.
- Designed interactive games like "T-Rex Runner" and "Angry Birds," optimizing for performance with WebGL and Canvas API.
- Collaborated with design teams to integrate dynamic animations, enriching user experience and engagement.

## Internship Experience

**Full Stack Developer Intern, Skill Lync**

**January 2023 – April 2023**

- Developed a fully functional **Instagram clone** using **React.js**, **Node.js**, **MySQL**, **Java**, and **Spring Boot**, implementing features like user registration, login, and image posting.
- Built a **Netflix clone** using **React.js**, incorporating the **TMDB API** for movie data retrieval and **Firebase** for user authentication.
- Engineered the backend of a stock management system using **Java** and **Spring Boot**, focusing on inventory tracking, order management, and secure user authentication.
- Implemented responsive and dynamic user interfaces using React.js and Spring Boot to ensure mobile and web compatibility.
- Integrated RESTful APIs for front-end and back-end communication, leveraging MySQL for database management.
- Applied secure authentication protocols using Java and MySQL, employing modern development practices for scalable and efficient deployment.

## Education

- **B.Tech in Mechatronics,** Banasthali Vidyapith, Jaipur (2016-2020)
- **Higher Secondary Education (PCM),** The Oxford Convent H.S. School (2015)
- **Secondary Education,** St. Anne's HR. Secondary School (2013)

## Skills

- Java, Core Java, and Spring Boot
- Microservices architecture
- RESTful API development and integration
- Front-end technologies: HTML5, CSS3, JavaScript, React.js
- MySQL, JDBC
- GIT version control
- JIRA, WINSCP
- Team management, leadership, and problem-solving skills

## Technical Proficiency

- **Programming Languages:** Java, JavaScript
- **Frameworks:** Spring Boot, Microservices, React.js

- **Database Management:** MySQL, JDBC
- **Tools:** GIT, JIRA, WINSCP
- **Web Technologies:** HTML, CSS, REST APIs
