PROFILE SUMMARY

Results-oriented Front-End Developer with 2 years of experience building responsive and user-centric web applications using React.js, JavaScript, and TypeScript. Proficient in integrating RESTful APIs, optimizing performance, and collaborating with backend teams. Actively expanding backend skills with Node.js, MongoDB, and AWS to transition into Full-Stack Development. Passionate about delivering high-quality software solutions and exploring low-code/no-code platforms like Salesforce and SAP.

TECHNICAL SKILLS

Frontend: Java, JavaScript, TypeScript, React.js, Next.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js, Mongoose, RESTful API

Frameworks and Libraries: Material UI, Framer Motion, Redux

Cloud Technologies and Databases: Firebase, MongoDB

Development Tools: Vercel, AWS (S3, EC2), Cloudflare, NPM, Yarn

Collaboration & Version Control: Git, GitHub, VS-Code, Postman API

EXPERIENCE

SEARCHINGYARD SOFTWARE PVT LTD | Software Developer — April 2023 – August 2024

JavaScript | React.js | TypeScript | Next.js | Node.js | Express.js | MongoDB | Tailwind CSS | Rest APIs — *Odisha, India*

- Played a key role in MERN stack projects across sectors like e-commerce and ERP, delivering scalable, feature-rich applications with seamless frontend-backend integration.
- Collaborated cross-functionally to streamline workflows, increasing productivity by 40% and introducing development best practices that elevated code quality by 20%.

DREAMWAVE INNOVATION | Front-End Developer — August 2024 – Current

JavaScript | React.js | TypeScript | Next.js | Express.js | Tailwind CSS | Rest APIs | Firebase | AWS — *Odisha, India*

- Developed interactive UI components, implemented secure authentication systems, and resolved critical bugs to optimize performance and system reliability.
- Contributed to cloud deployments using AWS S3 and EC2, ensuring minimal downtime and efficient integration with Node.js and RESTful APIs.

PROJECTS

UNIVER 3.0 |React.js |TypeScript |Next.js |Express.js |MongoDB |Mongoose |Rest API |Material UI |Tailwind CSS

- Collaborated with a multidisciplinary team to develop a responsive front-end using React.js, Tailwind CSS, and TypeScript, elevating user interface engagement.
- Integrated REST APIs, improving user experience by 20% and streamlining data flow.
- Enhanced system scalability and reduced hosting costs by 25% through efficient deployment on AWS S3 and containerization with Docker.

CMS Platform |React.js |TypeScript |Next.js |Express.js |MongoDB |Mongoose |Rest API |Material UI |Tailwind CSS

- Designed a Content Management System (CMS) with a modular architecture, utilizing reusable UI components and microservices for scalability and customization across diverse business needs.
- Implemented robust user authentication and content versioning mechanisms, reducing unauthorized access by 40% and enhancing content management for over 150 users.
- Deployed the CMS successfully, achieving a 40% improvement in content management speed and a 25% reduction in operational costs.

EDUCATION

Bachelor's Degree in Computer Science — Aug 2019 - Jun 2023

Gandhi Engineering College (*8.46/10 CGPA*) — Odisha, India

Relevant Coursework: Object Oriented Programming, DBMS, Data Structures and Algorithms, Operating Systems.

Projects: College Management System- A comprehensive web application designed to streamline college operations, including managing student records, faculty schedules, course registrations, and administrative tasks.

- Utilized HTML, CSS, JavaScript for frontend, Node.js and Express.js for backend, and MySQL for database management.
