- Positive Attitude
- Problem solving skills

EXPERIENCE

"Universal Healthcare" **Jan 24**

- As a Full Stack Developer, your primary responsibilities will include:
- Designing, developing, and maintaining user-friendly web applications
- Collaborating with designers, product managers, and other team members to deliver high-quality products
- Writing well-structured, efficient, and maintainable code
- Testing and debugging applications to ensure optimal performance

PROJECT

"NEWS APP"

- Tools and technologies:HTML5, CSS3, Bootstrap, JavaScript, MERN
- This MERN-powered react news app represents a step forward in how we access and engage with news. It highlights the potential of this technology stack to create innovative and user-friendly applications. As the app continues to develop/programming, we can expect even more exciting features and functionalities.

"NOTEBOOK"

- Tools and technologies:HTML5, CSS3, Bootstrap, JavaScript, MERN
- It is the notebook on the cloud that is it can be used to store any notes or important points on the cloud with Responsive Design. This time We will be storing the data on the server. We will be creating a login Page to grant access to the notes for its right User only.

"eCommerce"

- Tools and technologies:HTML5, CSS3, Bootstrap, JavaScript, MERN
- This MERN react eCommerce app represents a leap forward in online shopping convenience. It showcases the power of MERN to create dynamic and user-cantered shopping experiences with responsiveness. With ongoing development, we can expect even more innovative features that make online shopping a breeze!
