Isha Sutariya

Professional Summary

As a UX/UI designer with over 3+ years of experience, I specialize in user research, wireframing, prototyping, and designing interfaces that align seamlessly with both user and business needs. My designs combine problem-solving functionality with creativity, ensuring user-friendliness. I'm dedicated to ongoing learning and staying updated on industry trends. I worked well with development teams, product managers, and stakeholders to create user-friendly experiences and achieve business goals.

Work Experience
