Frontend Developer with 3+ year of experience in building responsive and scalable user interfaces using **ReactJs**, **Redux**, and **Redux-Saga**. Proficient in leveraging **Material-UI** for creating intuitive UI components. Strong experience in collaborating across teams to develop dynamic and modular applications.

EDUCATION

Chandigarh University **Punjab, India**
B.tech in Computer Science Engineering *2018 - 2022*

SKILLS

Languages: HTML, CSS, JavaScript(ES6+), Java
Frameworks/Libraries: ReactJs, Redux, Redux-Saga, Material-UI, Highcharts, Extjs
Technologies/Databases: Git, MySql, Jenkins, RESTful APIs
Soft Skills: Problem-Solving, Algorithmic Thinking, Effective Communication, Team Collaboration, Leadership

WORK EXPERIENCE

Software Development Engineer
Highradius Technologies Pvt. Ltd. Hyderabad, India *Jan 2025 - Present*

- Prepared requirement and design documentation, including technical specifications and solution approaches, for key features of a new product initiative.
- Developed 6+ UI screens and implemented key features for a product aimed at automating employee performance evaluation.
- Implemented role-based access control to deliver tailored features for Admin, IC, EEP, and other user roles, ensuring secure and restricted access.
- Redesigned the user interface to deliver a modern, professional, and user-centric website experience that enhances readability, clarity, and usability.

Associate Software Engineer
Highradius Technologies Pvt. Ltd. Hyderabad, India *Jan 2023 - Dec 2024*

- Collaborated with backend teams to integrate 10+ new features and implement a scalable architecture, resulting in a 20% improvement in overall development efficiency.
- Modernized the front-end by integrating Redux Toolkit and replacing legacy Redux with Material-UI components, reducing load times by 15% and enhancing performance, maintainability, and scalability.
- Led and contributed to knowledge transfer initiatives, including technical training sessions and documentation, to onboard team members on product architecture, processes, and features.
- Worked on Selenium-based automation scripts to streamline UI testing and improve test coverage.
- Developed a custom data preprocessing utility to eliminate duplicate records and apply client-specific modifications for data extraction workflows.

Software Development Intern
Highradius Technologies Pvt. Ltd. Hyderabad, India *Aug 2021 - Dec 2022*

- Building a scalable web application using React.js, Redux, and Redux-Saga for efficient state and side-effect management..
- Designed and developed a UI sub-module in close collaboration with POD leads to align with product vision.
- Ensured adherence to coding standards, design patterns, unit testing practices, and project management protocols.
- Delivered clean, production-ready code with a focus on performance, maintainability, and scalability.
- Applied modern web development best practices to ensure application robustness and long-term scalability.

PROJECTS

Amazon Clone Web-app **Aug 2022 - Nov 2022**

- Developed a fully functional e-commerce web application using React.js and Redux for state management..
- Integrated Firebase for user authentication and secure credential storage..
- Implemented Stripe payment gateway for seamless transaction processing.
- Key features: User login, product listing and detail pages, add-to-cart functionality, view cart, and secure checkout process.

ACHIEVEMENTS

- **Award of Applause - Q4 24** - Dec 2024

EXTRACURRICULAR ACTIVITIES

- **Modelling Coach** in Inter-College Modelling Competition, backed 3rd position- 2019
- **NCC B Certificate -** 2017
