Professional Summary

Cloud Frontend Developer with 2 years of experience in React.js, Docker, and AWS, specializing in micro frontend architectures, UI/UX optimization, and scalable cloud-native applications.

Core Skills

- Front-End: HTML5, CSS3, JavaScript (ES6+), Responsive Web Design
- Back-End: Core Java, PostgreSQL, Database Management
- Web Development: UI/UX Design, Website Maintenance, Debugging & Optimization
- Game Development: 2D Game Design, Interactive UI, User Engagement Features
- LMS Development: Content Management, Course Structuring, User Authentication
- Version Control & Deployment: Git, GitHub, Docker, Cloud Deployment
- Python, Django, AI Integration (OpenAI, Ollama)

Experience

Software Engineer — Web & LMS Developer

Yeshika Technology Pvt Ltd, Bangalore 2023 Present

- Spearheaded the development of micro frontend-based LMS platforms.
- Engineered dynamic, responsive UI components to enhance user experience.
- Deployed and maintained cloud-hosted applications for high availability.
- AI-Powered PPT Generator (Django + AI Integration)

Game Developer — Interactive Learning

E-Evolution, Yeshika Technology Pvt Ltd, Bangalore *oct 2023*

- Designed 2D educational games, improving engagement through animations.
- Enhanced game UI/UX with interactive elements and sound effects.

Cloud Engineer Intern — DevOps Intern

Infrastack Labs, Bangalore June 2023

- Automated cloud-native deployments using Docker and Kubernetes.
- Optimized CI/CD pipelines, integrating AWS, Jenkins, and PostgreSQL.

Key Projects

Interactive LMS Web Application

- Work experience in developing Websites, Design, Testing &maintaining
- Experience in Learning management system development, platform to deliver, manage, and track educational content and maintains, deploying and uploading the content managing the Server.
- Experience in integrating with Web application resolving the bugs.
- Work experience in 2D game developing & Application
- Providing technical support and training to team members and end-users to maximize the adoption.

- LMS (Learning Management System) development involves creating a digital platform to deliver, manage, and track educational content. It includes features like user authentication, course management, assessments, progress tracking, and multimedia integration.
- **Developed a with an interactive UI for slide creation, editing, and presentation playback**. The tool supports adding text, images, videos, audio, tables, and shapes, with features like drag-and-drop positioning, resizing, and rotation.

AI-Powered PPT Generator (Django + AI Integration)

- Developed a web-based presentation generator that creates **syllabus-aligned PowerPoint slides** for CBSE and State boards. The system supports **both online (OpenAI GPT-4)** and **offline (Ollama + Llama3)** AI models for content generation, ensuring functionality with or without internet access
- Implemented dynamic PPT generation with titles, bullet points, definitions, and MCQs aligned with NCERT curriculum
- Added custom prompt overrides, editable previews, theming support, and AI-driven image generation
- Enabled multi-language rendering (English, Hindi, Kannada, Tamil) with correct font handling.

- Reduced manual slide creation time by 80%, empowering teachers to create high-quality presentations efficiently.
- Designed a scalable framework extendable to multiple boards, subjects, and regional languages

Educational 2D Game Development

- Work experience in developing WEBSITES, Design.
- Work experience in 2D game developing.
- experience in integrating with third-party APIs for functionalities like payment processing, social media login, or data retrieval.
- learning about server-side programming languages such as HTML, CSS3, JavaScript and how to work with databases like SQL.
- Importance of testing the code and debugging issues effectively to ensure the quality and reliability of web applications.
- Maintaining the exe, fixing bug, adding feature into the websites. Maintained the customer feedback resolved the issue.

Education

B.E in Computer Science
Govt Engineering College, Huvinahadagali — *2022* — CGPA: 7.2

Certifications

- Java Full-Stack Development – BJS Bangalore
- Cloud Computing & DevOps – AWS & Jenkins

Languages

English, Kannada, Hindi
