AKANSHA BHARTI – Frontend Developer

akanshabharti1213@gmail.com - +91 7500344244

LINKEDIN, GITHUB, PORTFOLIO

Current Address:
Delhi - 110009

PROFESSIONAL SUMMARY

- Frontend Developer with 1+ year of experience in building scalable, high-performance web applications using React.js.
- Proven ability to lead front-end efforts in a fast-paced startup environment—managing interns, reviewing code, and aligning closely with backend teams to deliver seamless user experiences.
- Strong in UI implementation, task estimation, and delivering pixel-perfect, responsive designs that meet business goals.

EXPERIENCE

Aiyug Beyondtax: Frontend Developer (React js) **June 2024 - Present**

- Developed and maintained front-end architecture using React js.
- Partnered with the development team to plan and build new product functionalities from concept to release.
- Conducted code reviews and mentored interns, promoting best practices in coding and design.
- Collaborated closely with backend developers to integrate REST APIs and ensure seamless data flow.
- Actively contributed to feature planning and estimation, improving team delivery accuracy.

CoziQ Experiences: Frontend Developer (React js) **Feb 2024 - April 2024**

- Built responsive UI components in React based on Figma designs.
- Enhanced product performance through efficient API integration.
- Ensured technical feasibility of UX concepts and accessibility.
- Worked in an agile environment, collaborating with designers and developers to iterate fast.

PROJECTS

Drive 3.0 – File Sharing App

- Built a Web 3.0 decentralized application for secure file sharing on Polygon's ZKEVM.
- Integrated IPFS for decentralized file storage and Ether.js for blockchain interactions.
- Focused on front-end architecture and API connectivity with smart contracts.
- **Tech Stacks** - React js, Tailwind CSS, Ether.js, IPFS, Hardhat, Solidity

Online Examination Portal

- Developed the Phase 1 Admin Panel of an exam management platform with role-based access.
- Integrated REST APIs for exam and user management with real-time data handling.
- Collaborated with senior developers to maintain clean architecture and consistent design system.
- **Tech Stacks** - ReactJS, Material UI, CSS

Random Password Generator

- Built a lightweight utility tool for generating strong, customizable passwords
- Implemented UI controls for selecting password length and character types.
- Focused on intuitive user experience with responsive design.
- **Tech Stacks** - ReactJS, Tailwind CSS, CSS

SKILLS

- **Languages:** HTML, CSS, JavaScript, C++, Python
- **Frameworks:** ReactJS, Tailwind CSS, Material UI
- **Miscellaneous:** MySQL, Git, Postman

EDUCATION

Bachelor of Science (Hons.) Computer Science: Hansraj College, Delhi University – 7.87 CGPA **2021 - 2024**

- **General Secretary, Ordinateur–The Computer Science Society Of Hansraj College:** Led a team of 100 members, overseeing society operations and event execution. Coordinated with team leads, faculty, and external collaborators to organize tech fests, coding competitions, and workshops.
- **Community Coordinator, Tezos Hansraj: Student Chapter of Tezos India at Hansraj College:** Acted as a bridge between the club's leadership and executive members, ensuring smooth information flow. Contributed to community growth by engaging with participants and fostering a collaborative environment.
