SUMMARY

Frontend Developer with 2 years of experience building scalable solutions using Angular, Java Script, HTML, and REST APIs, UI testing.

EXPERIENCE

Software Engineer Nov 2024 - Present
Montezuma AI Pvt Ltd *Pune, India*

- Developed a scalable and high-performance single-page application (SPA) for a government project using Angular, delivering a seamless user experience and a robust interface for complex data visualization and interactions.
- Experienced in front-end development tools such as npm/pnpm, HTML, TypeScript, and JavaScript.
- Designed and implemented custom objects, record types, validation rules, and formula fields to meet complex business requirements.
- Integrated **REST APIs** with optimized **SQL queries** for efficient data storage and retrieval.
- Ensured code robustness by writing test classes, achieving over **85 %** coverage before production deployment.
- Championed code quality through rigorous code reviews, orchestrating insightful and constructive code quality calls.
- Integrated **Jasmine–Karma** testing framework into the Angular project.
- Working on a modern **ERP (Enterprise Resource Planning) system enhanced with AI-driven automation**,
- Basic familiarity with Amazon Web Services (AWS), with hands-on exposure to core services
- Working on Project **-** New Mumbai Municipal Corporation Website and Application
  - Pune Municipal Corporation Application

Software Engineer JAN 2024 – Nov 2024
Pictel AI (TeachLead) Technology, Information and Internet *Pune, India*

- Led the front-end development for *Clarity* , a US-based pharmaceutical AI- driven web application. Built a scalable and high-performance single-page application (SPA) using Angular, ensuring a seamless user experience and robust interface for complex data visualization and interaction.

  Work closely with Tech leads/managers, BA/Consultant and other project stakeholders
- I designed user interfaces (UIs), developed CSS styles for forms, implemented authentication, performed UI testing, fixed UI bugs, and made changes to the UI according to the requirements
- Worked on Project - Clarity Project (Pharma instrument project)

System Engineer Trainee Aug 2022 – Jan 2023
Infosys *Mysore, India*

- Experienced in Java and DBMS, with a solid understanding of database management and SQL optimization. Completed training In CIS. Independently managed multiple mini projects, demonstrating strong problem-solving abilities and effective execution. Proficient in creating dynamic visualizations using Power BI

SKILLS

Programming Language	Angular, JavaScript, Java
Integration	Rest API
Web Technologies	HTML, CSS, Tailwind CSS
Database	SQL
Dev Tools	Git, Github, VS Code, CLI, Postman.
Deployment	CI/CD (Github)

EDUCATION

Bachelor of Engineering in Electrical Engineering (9.31 CGPA) 2019 – 2022
Gokhale Education Society, R. H. Sapat Collage of

Engineering, Nashik

CETIFICATION

- Full Stack Web Development (Seed Infotech
  Pune)
