CORE COMPETENCIES

- User Experience Design
- Agile Development Methodologies
- Cross-Functional Team Collaboration
- Scalable Application Architecture
- Performance Optimization
- Real-Time Data Processing
- Interactive Web Development
- Quality Assurance Practices
- Continuous Integration & Development (CI/CD)
- Software Development Life Cycle (SDLC)

SOFT SKILLS

- Strong Analytical & Problem-Solving Skills
- Time Management & Multitasking
- Attention to Detail
- Team Collaboration & Coordination

TECHNICAL SKILLS

- **Languages**: JavaScript (ES6+), TypeScript, HTML5, CSS3
- **Technologies/Frameworks/Libraries**: React, Redux, React Router, Node.js, Bootstrap, Tailwind CSS, Git, Jira, MaterailUI, Elastic Search, Figma, Context APIs
- **Core CS Concepts**: Responsive Design, Operating Systems, DBMS, Frontend Architecture, State Management

EDUCATION

- **B.Tech.** (Computer Science and Engineering) – 2023 - Guru Nanak Dev University, Amritsar – 8.43 CGPA

PERSONAL DETAILS

- **Address**: Gurugram, Haryana
- **Date of Birth**: 11th April 2001
- **Languages Known**: English, Hindi, Punjabi

PROFILE SUMMARY

- Proactive and detail-oriented professional with hands-on experience in building dynamic, scalable, & responsive web applications using React, JavaScript (ES6+), & modern UI frameworks.
- Skilled in end-to-end UI development, state management with Redux, and integration with backend APIs to deliver seamless user experiences across platforms.
- Proven capability to lead and collaborate within cross-functional teams, contributing to successful delivery of high-impact projects like the News Portal UI and CMS system.
- Recognized for independently developing and deploying complete modules, enhancing overall platform usability and user engagement.
- Strong communicator with the capability to translate technical concepts into business value, fostering effective collaboration between technical and non-technical stakeholders.

ORGANISATIONAL EXPERIENCE

BlackNGreen Mobile Solutions Pvt. Ltd. – Software Developer **Jul'23-Present**

Roles and Responsibilities:

- Driving the creation of responsive and intuitive front-end interfaces using React, HTML5, CSS3, and JavaScript (ES6+), ensuring seamless functionality and user engagement.
- Collaborating closely with UX/UI designers and backend developers to deliver performant, scalable, and visually cohesive web applications.
- Orchestrating efficient state management with Redux and integrating React Router for smooth navigation and real-time data synchronization in single-page applications (SPAs).
- Contributing to the development of reusable front-end components and enhancing UI implementation standards to maintain consistency and scalability across projects.

Achievements:

- Developed and deployed complete front-end modules independently, including the company website, ensuring scalability and maintainability.
- Enhanced platform UI/UX, resulting in a 20% increase in user engagement and improved overall usability.

INTERNSHIP

BlackNGreen Mobile Solutions Pvt. Ltd. – Software Development Intern **Dec'22-Jun'23**

Roles and Responsibilities:

- Contributed to the development of scalable, modular front-end components using React, ensuring maintainability and performance optimization across projects.
- Collaborated with the design team to implement intuitive user interfaces while leveraging JavaScript, React, and React Router to build seamless single-page applications (SPAs) with smooth navigation and cohesive user experiences.

PROJECTS

Ask IVA (React, JavaScript, Socket.io, WebRTC, Tailwind CSS)

- Engineered a real-time AI voice assistant leveraging Socket.IO for bidirectional communication and WebRTC for live audio streaming between user and AI agent, enabling an interactive, two-way conversational experience.
- Integrated modern RTC and AI technologies to simulate real-time voice interaction, showcasing advanced use of streaming and event-driven architecture.

News Portal UI & CMS (React, JavaScript, Material UI)

- Designed and developed a dynamic news portal with categorized sections (national, sports, tech, entertainment) and an integrated CMS for content creation, updates, and moderation without developer input.
- Enabled non-technical users to manage articles independently, automating admin workflows and accelerating publishing through seamless frontend–backend integration.

Interactive Website Development (React, JavaScript, HTML, CSS)

- Developed a responsive company website from scratch, applying modern UI/UX principles, animations, and transitions for enhanced engagement and navigation.
- Implemented synchronized text with background videos and optimized performance for faster load times and immersive visual storytelling.

Swipe4Win – Quiz Application (React, JavaScript, HTML, CSS, Elasticsearch)

- Built an interactive quiz platform with user authentication, subscription APIs, and real-time scoring for a smooth and scalable play experience.
- Integrated Elasticsearch for advanced analytics, behavior tracking, and personalized quiz recommendations, ensuring responsiveness under high concurrent usage.
