Devang Bhandari | **Frontend Developer**

Surat, Gujarat, India | +91-7984159073 | *devang7050@gmail.com* | *LinkedIn*

Professional Summary

Frontend Developer with 8+ years of experience building scalable, high-performance applications using **React.js, Next.js, JavaScript**, and modern UI engineering. Strong expertise in API integration, state management **(Redux/React Query)**, component architecture, accessibility (WCAG), and performance optimization. Experienced in ERP, CRM, and e-commerce platforms with a proven record of improving efficiency, reducing load time, and delivering pixel-perfect UI.

Technical Skills

Frontend Technologies:
HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, jQuery, Redux, Context API

Backend Technologies:
.NET Framework, .NET Core, ASP.NET MVC, Web API, Entity Framework, RESTful APIs, Node.js

Styling & UI Frameworks:
Tailwind CSS, Bootstrap, Material-UI, styled-components, Sass, CSS Modules

Databases:
SQL Server, MySQL, MongoDB, PostgreSQL

Development Tools & Platforms:
Visual Studio, VS Code, Git, GitHub, Shopify, WordPress, Cursor

Testing & Methodologies:
Manual Testing, Unit Testing, Integration Testing, CI/CD

Additional Skills:
Hardware Configuration, Network Setup, Client Consultation, Requirement Analysis

Professional Experience

Software Developer | NandiNetram Fintech LLP | Surat, India ***(May 2024 – Present)***

- Architected and developed high-performance financial applications using **React.js** and **Next.js**, improving application performance.
- Engineered responsive user interfaces with **Tailwind CSS** and **Material-UI**, reducing development time through reusable component libraries
- Collaborated with UX/UI designers to transform complex Figma designs into pixel-perfect, cross-browser compatible web applications
- Integrated real-time data visualisation features for financial dashboards, enhancing user decision-making capabilities

Software Developer | Kyros Infotech | Surat, India ***(September 2020 – April 2024)***

- Led development of enterprise-level Web ERP system serving 50+ concurrent users.
- Built a full-stack CRM solution with **React.js (frontend),** enhancing customer engagement tracking and increasing overall sales conversion.
- Conducted client requirement analysis sessions, translating business needs into technical specifications with accuracy

Web Developer / Web Designer | Decodeup Technologies | Surat, India ***(March 2019 – July 2020)***

- Developed 50+ e-commerce websites on **Shopify** and **WordPress** for Compress platform clients.
- Customised **Shopify** themes improving store functionality and user experience.
- Implemented SEO best practices across all websites, increasing organic traffic for clients.
- Reduced website loading times through image optimization and code minification techniques.

Web Designer and Tester | Sanskriti Technologies | Surat, India ***(December 2015 – February 2019)***

- Designed and launched 25+ websites using **WordPress**, **HTML, CSS, and JavaScript**, maintaining 100% client satisfaction rate.
- Implemented comprehensive testing strategies for complex modules, reducing post-deployment bugs.
- Established LAN networks for 10+ client factories, improving internal communication and data sharing efficiency.
- Created detailed documentation for all projects, facilitating knowledge transfer and reducing onboarding time for new team members.

Key Achievements

Performance Optimization Excellence

- Optimized application performance through code refactoring and implementing efficient data fetching strategies.
- Reduced server response time by implementing caching mechanisms and database query optimization.

Project Leadership & Delivery

- Successfully delivered 50+ projects across various domains, including ERP, CRM, and E-commerce.
- Led a team of 3 developers in delivering a complex ERP system 2 weeks ahead of schedule.
- Achieved 100% project delivery rate within deadlines while maintaining quality standards.

Client Satisfaction & Business Impact

- Maintained 95% client retention rate through consistent delivery of high-quality solutions.
- Increased client operational efficiency by customized software solutions.

Technical Innovation

- Pioneered the adoption of modern frontend frameworks within organizations, reducing development time.
- Implemented responsive design principles that improved mobile user engagement.
- Introduced version control and **CI/CD practices**, reducing deployment issues.

Projects

Trading & Algo Automation Application | Company Project (Current)

• Developing a high-performance trading and algo automation application for retail and professional traders.
• Built a complete trading module on the frontend with advanced API integration for order placement, market data, and portfolio management.
• Integrated real-time WebSocket streams for live market prices, order status updates, and strategy execution tracking.
• Implemented interactive charting, indicators, and data visualization to enhance user trading decisions.
• Designed responsive UI screens for order management, trade history, bot activation, and P&L monitoring.
• Optimized API calls and state management, improving real-time rendering speed and reducing screen load time.

Enterprise Resource Planning (ERP) | Company Project

- Led development of a comprehensive ERP system for the manufacturing industry.
- Implemented modules for inventory, sales, purchase, accounting, and HR management.
- Integrated barcode scanning and real-time inventory tracking.

Store Management System | Personal Project

- Developed full-stack e-commerce application using React.js and Node.js.
- Implemented user authentication, product catalogue, shopping cart, and order management features.
- Integrated payment gateway and inventory management system.
- Deployed using cloud services with auto-scaling capabilities.

Education

Diploma in Computer Engineering
Government Polytechnic Waghai | Valsad, India
March 2010 – August 2013
CGPA: 5.89/10

Languages

- **Gujarati:** Native Proficiency
- **Hindi:** Native Proficiency
- **English:** Moderate Proficiency

Professional Interests

- Software Architecture & System Design
- Cloud Computing & Microservices
- AI/ML Integration in Web Applications
- Performance Optimization Techniques
- Mobile Application Development
- Emerging Web Technologies
